Is It Time To Renew Your Weighmaster License?

Do you operate in a state where a Weighmaster license is required? If so, now is a good time to check to see when you need to renew that license. **Your expiration date should be listed on your current license.**

The following states DO require a Weighmaster license:

AL	AZ	CA	CO	CT
DE	GA	IN	LA	ME
MA	MS	NV	NH	NJ
NM	NY	NC	PA	SC
TN	TX	VT	VA	WA

Some states have very strict and unusual Public Weighmaster Laws. Make sure to contact us at 1-877-CAT-SCALE, ext.6 if you have any questions about Public Weighmaster Laws in your state.

How To: Print A Weigh My Truck Ticket

As you know, CAT Scale tickets from the Weigh My Truck app no longer auto print (except in ND, NH & NJ as required). These tickets can be printed upon customer request for up to an hour after the weigh.

When a customer comes in who has weighed using the WMT app and would like a printed copy of their scale ticket, you will do the following:

1. Press the F6 button on the keyboard.
2. The screen will show all of the WMT weighs not printed. Arrow down to the correct weigh record and press ENTER to print the ticket. (hint: use the tractor number, trailer number and time as your guide).

Call Us First!

If you ever experience an issue with your scale or need help weighing an oversized load, ALWAYS call the 24/7 CAT Scale Help Desk first!

Calling your intercompany support first can slow down the process of fixing any issues, creating an even bigger headache for you and your drivers.

1-877-CAT-SCALE, ext. 6

Quick Tips

For many of you this is old news but, new employees and new locations are coming on board every week and will likely appreciate the help.

When a driver pulls on the scale and uses the Weigh My Truck™ application, you will:

- Hear an alert tone from the scale indicator. (This is a different tone from a regular weigh)
- Be prompted to accept the information shown on the screen.
- Verify the correct placement of the vehicle weighing by looking at your monitor.
- Enter your PIN number and press enter to authorize the transaction and display the weights.
- Press enter again once the weights are shown to finalize the transaction for the driver.

Maintenance Tips

Here are some tips to keep your scale in operation during the unpredictable weather of the fall months.

- **Call the CAT Scale Help Desk if you are closing for any reason**, including a storm or evacuation. We will instruct you on how to prepare your scale.
- **Remove any stray debris in a timely manner.**
- **Check scale pits weekly** to catch water problems before it's too late. This is especially important after a heavy rain.
- **You may occasionally need to manually zero out your scale if it shows weight on the scale when there isn't a truck there.** (You can do this by pressing the "zero" button on your scale indicator. If this is a recurring problem, call the CAT Scale Help Desk.)
- **Call the CAT Scale Help Desk ASAP if you have a scale problem. 1-877-CAT-SCALE, ext. 6**

Remember, any time your scale is shut down it costs you money. Keeping your scale clear of debris is important and provides a great service to your customers.

How To Stay Positive At Work, Even On Tough Days

By Kyrus Westcott

Have you ever found yourself wondering how to stay positive at work when nothing seems to go right? We've all been there. Staying positive is easier said than done, but trust me—it's worth the effort. But here's the thing—staying positive is not about being in denial or pretending everything is perfect. It's about choosing to focus on what you can control and not letting the negative overwhelm you. I've found ways to stay positive in those moments, and today, I want to share those tips with you.

Control What You Can

You can't control everything at work, but you can control how you react. Instead of focusing on the things outside your control, shift your energy toward what you can manage—whether it's organizing your workspace or managing your time better. Trust me, it helps.

Celebrate The Small Wins

During my most stressful workdays, I made it a point to celebrate small victories. Maybe I didn't finish everything on my to-do list, but I sent that important email or completed that one difficult task. These small wins can shift your mindset and give you a sense of accomplishment.

Practice Gratitude

As cliché as it sounds, gratitude really does make a difference. When work was tough, I started writing down one thing I was thankful for at the end of the day. It could be something as simple as a coworker's kind words or a project milestone. This practice slowly helped me stay positive at work.

Focus Forward

One key to staying positive is to set achievable goals. But if your goals aren't realistic, you'll always feel behind, like you're failing. Instead, work on smaller goals that could help you work towards your ultimate goal. Those could be increasing productivity or improving communication skills for example.

In the end, staying positive isn't about pretending everything is perfect. It's about recognizing that, even when things aren't going how you'd like, you have the power to make it better. And that is the real key to thriving in any work environment.
